WHITE FANG

More than a century after its original publication, the compelling story of *White Fang*, born in the wilds of the freezing cold Yukon territory, reflects the harsh laws of nature as the wolf-cub grows fiercer and more independent in his struggle to survive the harsh realities of winter life. With distant memories of affection and love the question is can he learn to trust man again?

The timeless relevance of the story is enhanced by the historic context of the Klondike gold rush, the geography of the territory including Arctic Circle and bond between man and beast in a story of “a courageous young man and a magnificent wolf in an epic struggle of survival.”

(U.S.A.1991, 107 min. Directed by Randal Kleiser, invited to attend subject to availability;
starring Ethan Hawke, Klaus Maria Brandauer and stellar cast).
